

DIAMOND CHOICE

Rare and precious, diamond-derived ingredients are as sought after in face creams as the gemstones are in jewellery. In 111Skin's Celestial Black Diamond Cream, tiny black-diamond particles help to draw key ingredients into the skin, while peptides grafted with diamonds promote DNA repair in Omorovicza's Blue Diamond Super Cream. And in NuBo's White Diamond Ice Glow Mask, micronised diamonds are teamed with micro-encapsulated oxygen to leave skin feeling cool and calm, and looking luminous. Don't forget to treat your neck, too.

111Skin Celestial Black Diamond Cream 50ml, £599; **Omorovicza** Blue Diamond Super Cream 50ml, £145; **NuBo** White Diamond Ice Glow Mask 50ml, £100
